

**Mountain Regional Water Special Service District’s 2023**

**Prequalified Vendor List for Engineering Service Providers:**

Per Section 3.6.1.7 of Mountain Regional Water’s Procurement Policy (July 26<sup>th</sup> 2017, as amended), the District shall follow approved methods for entering into engineering service contracts. The following classifications will be used as a first criteria for consultant selection. Where commonality exists, a rotation system shall be employed. In the event a specific task arises that does not fall into the classifications detailed below and a prequalified vendor is determined to have that specific expertise (supported by past experience), the Chief Procurement Officer shall make the selection accordingly and provide justification using the District’s approved process.
